

The earth is flat.  
The sky is round.  
The sun is cool.  
The moon is crazy.

The mountain is barren.  
The sea is dry.  
The forest is green.  
The land is blooming high.

The devil is real.  
god is only imagination.  
Humans are kind.  
The animals are cruel.

Yet who knows what this place is really like?

Truth lies behind the lines; earth and humanity are on the verge of collapse, earth is dying,  
and humanity no longer exists.
